

Mayrhofen Press Release **Summer 2017**

THE GRAVITY GAME

THE FUNSPORTSTATION AT PENKEN OFFERS ACTION AND ENTERTAINMENT FOR THE ENTIRE FAMILY

How about a very special mountain experience? Then there's nothing like being at 2,000 metres at the Funsportstation at the Penken Reservoir. The Station includes agile mountain scooters and huge Funballz. Large and small action lovers can experience sports they don't see every day: Explore the mountain's action-packed tours, walk weightlessly across the water, and rise to lofty heights at the Via Ferrata and defy gravity – the Action Mountain Penken also deserves its name in the summer.

Most experience the beauty of the mountains in summer either on foot or riding a bike. And when you want a change from hiking or biking, the Penken Reservoir offers all the ingredients for an action-filled day. Visitors of the Funsportstation find everything needed for outdoor enjoyment, and mountain athletes can fully satisfy their needs for action. They relax as they quickly ascend on the Penkenbahn cable car and then continue with the combi-lift; both offer enough space for mountain scooters, bikes and baby buggies.

RIDING PLEASURE WITH A DIFFERENCE

From there it's just a short hop to the Funsportstation. Here you can rent mountain scooters and enjoy a new kind of riding experience. Your feet are right underneath you and at the centre of gravity – different than on a bike. Since your body is straight, the feeling is more similar to skiing. The mountain scooters are available in cosy or more sporting versions, and are suitable for relaxed exploring or rapid descents. Depending on the style you prefer, you can take the scooter on two tours.

RUN WEIGHTLESSLY ON THE WATER

The dream of running on the water is now reality on the Penken Reservoir: with giant, transparent air-filled plastic balls. The entire family can run across the water on Funballz without getting wet. The balls provide enough air and freedom of movement, and can be enjoyed without precognition.

NERVES OF STEEL

Do you like an adrenaline kick? Then come to the Via Ferrata at the Knorren climbing area. It starts with a vertical ladder, followed by an airy traverse with steeper sections up to the summit. The climbing sets are provided for free at the Funsportstation. Just bring along your lack of fear of heights.
